	RODUCT AND COMPANY ID	ENTIFICATION			
Product Name: Company Name:	Klean-Strip Paint Stripper After Wash W. M. Barr 2105 Channel Avenue Memphis, TN 38113				
	www.wmbarr.com 3E 24 Hour Emergency Contact	(800)451-8346			
Information:	W.M. Barr Customer Service	(800)398-3892			
Product Category:	Multi-Purpose Solvent				
Product Code:	QKSW94341				
	2. HAZARDS IDENTIFIC	ATION			
Specific Target Organ Toxicit	ty (single exposure), Category 3				
GHS Signal Word:	Danger				
GHS Hazard Phrases:	H225: Highly flammable liquid and vapor. H319: Causes serious eye irritation. H335: May cause respiratory irritation.				
GHS Hazard Phrases:	H225: Highly flammable liquid and vapor. H319: Causes serious eye irritation.	ng equipment. ilating/lighting/ equipment. nst static discharge. oray. ling. ilated area.			
GHS Hazard Phrases:	 H225: Highly flammable liquid and vapor. H319: Causes serious eye irritation. H335: May cause respiratory irritation. P210: Keep away from heat/sparks/open P233: Keep container tightly closed. P240: Ground/bond container and receivi P241: Use explosion-proof electrical/vent P242: Use only non-sparking tools. P243: Take precautionary measures agai P261: Avoid breathing gas/mist/vapors/sp P264: Wash hands thoroughly after hand P271: Use only outdoors or in a well-vent P280: Wear protective gloves/protective of P235: Keep cool. P303+361+353: IF ON SKIN (or hair): Re clothing. Rinse skin with water/shower. P304+340: IF INHALED: Remove victim to comfortable for breathing. 	ng equipment. ilating/lighting/ equipment. nst static discharge. oray. ling. ilated area. clothing/eye protection/face protection. move/take off immediately all contaminated o fresh air and keep at rest in a position ously with water for several minutes. Remove Continue rinsing. /physician if you feel unwell. edical advice/attention.			

	Supersedes Revision: 02/16/2023
OSHA Regulatory Status:	This material is classified as hazardous under OSHA regulations.
Potential Health Effects	Inhalation Acute Exposure Effects:
(Acute and Chronic):	Vapor harmful. May lead to central nervous system effects, such as dizziness,
	drowsiness, headaches, and nausea. High vapor concentrations are irritating to the eyes, nose, throat, and lungs.
	Skin Contact Acute Exposure Effects:
	May cause skin irritation. Prolonged or repeated contact can result in defatting and
	drying of the skin which may result in skin irritation and dermatitis. Acetone can facilitate the absorption of other materials through the skin.
	Eye Contact Acute Exposure Effects: This material is an eye irritant. May cause moderate to severe irritation. May cause discomfort, pain, and redness. May cause moderate corneal injury. Effects may be slow to heal.
	Ingestion Acute Exposure Effects: Harmful if swallowed. May cause dizziness, headache, nausea, and irritation of the mouth, throat, and stomach.
	Swallowing small amounts of 2-butoxyethanol as a result of normal operations is not likely to cause injury; however, swallowing larger amounts may cause injury. In animals, effects have been reported on the following organs: blood (hemolysis) and secondary effects on the kidney and liver. Human red blood cells have been shown to be significantly less sensitive to hemolysis than those of rodents and rabbits. Massive ingestion may produce metabolic acidosis and subsequent secondary effects such as hemolysis, central nervous system and kidney effects.
	Chronic Exposure Effects: Reports have associated repeated and prolonged overexposure to solvents with neurological and other physiological damage. Intentional misuse by deliberately concentrating and inhaling solvents may be harmful or fatal.

Medical Conditions Generally Skin, eye, lung (asthma-like conditions) Aggravated By Exposure:

3. COMPOSITION/INFORMATION ON INGREDIENTS

CAS #	Hazardous Comp	oonents (Chemical Name)	Concentration
67-64-1	Acetone {2-Propa	inone}	80.0 -100.0 %
111-76-2	Ethanol, 2-Butoxy (a glycol ether)}	- {Ethylene glycol n-butyl ether,	1.0 -5.0 %
Additional Ch Information	nemical	Specific percentage of comp	osition is being withheld as a trade secret.

	4. FIRST AID MEASURES			
Emergency and First Aid Procedures:	Skin: Immediately begin washing the skin thoroughly with large amounts of water and mild soap, if available, while removing contaminated clothing. Seek medical attention if irritation persists.			
	Eyes: Immediately begin to flush eyes with water, remove any contact lens. Continue to flush the eyes for at least 15 minutes, then seek immediate medical attention.			
	Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention.			
	Ingestion: If swallowed, do NOT induce vomiting. Seek immediate medical attention. Call a physician, hospital emergency room, or poison control center immediately. Never give anything by mouth to an unconscious person.			
Signs and Symptoms Of Exposure:	Primary Routes of Exposure: Inhalation, ingestion, and dermal.			
	5. FIRE FIGHTING MEASURES			
Flammability Classification:	Class IB			
Flash Pt:	0.00 F Method Used: Setaflash Closed Cup (Rapid Setaflash)			
Explosive Limits:	LEL: N.D. UEL: N.D.			
Autoignition Pt:				
Suitable Extinguishing Media	a:Use carbon dioxide, dry powder, water spray, or foam.			
Unsuitable Extinguishing Media:	Straight water streams may be ineffective.			
Fire Fighting Instructions:	Self-contained respiratory protection should be provided for fire fighters fighting fires in buildings or confined areas. Storage containers exposed to fire should be kept cool with water spray to prevent pressure build-up. Stay away from heads of containers that have been exposed to intense heat or flame.			
Flammable Properties and Hazards:	This material is a static accumulator.			
Hazardous Combustion Products:	carbon monoxide, carbon dioxide			
	6. ACCIDENTAL RELEASE MEASURES			
Steps To Be Taken In Case Material Is Released Or	Vapors may cause flash fire or ignite explosively.			
Spilled:	Clean up: Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind, out of low areas, and ventilate closed spaces before entering. Shut off ignition sources; keep flares, smoking or flames out of hazard area. Use non-sparking tools. Use proper bonding and grounding methods for all equipment and processes. Keep out of waterways and bodies of water. Be cautious of vapors collecting in small enclosed spaces, sewers, low lying areas, confined spaces, etc. Small spills: Take up with sand, earth or other noncombustible absorbent material and			
	place in a plastic container where applicable.			
Licensed to W.M. Barr and Company:	MIRS SDS, (c) A V Systems, Inc. GHS format			

	Large spills: Dike fa	Large spills: Dike far ahead of spill for later disposal.			
	Waste Disposal: Dispose in accordance with applicable local, state and federal regulations.				
	7. HAND	LING AND STORAGE			
Precautions To Be Taken in Handling:	 Read carefully all cautions and directions on product label before use. Since empty container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse this container. 				
	Do not use this product near any source of heat or open flame, furnace areas, pilot lights, stoves, etc.				
	Do not use in small enclosed spaces, such as basements and bathrooms. Vapors can accumulate and explode if ignited.				
	Do not spread this product over large surface areas because fire and health safety risks will increase dramatically.				
Precautions To Be Taken in Storing:	Keep container tightly closed when not in use. Store in a cool, dry place. Do not store near flames or at elevated temperatures.				
8. EX	POSURE CONT	ROLS/PERSONAL PROTECTION	ON		
CAS # Chemical Name	Jurisdiction	Recommended Exposure Limits	Notations		
67-64-1 Acetone {2-Propand		TLV: 500 ppm STEL: 750 ppm			
	OSHA PELs	PEL: 1000 ppm			

111-76-2 Ethanol, 2-Butoxy-ACGIH TLV TLV: 20 ppm {Ethylene glycol n-butyl ether, (a glycol ether)} **OSHA PELs** PEL: 50 ppm For OSHA controlled work place and other regular users. Use only with adequate **Respiratory Equipment** (Specify Type): ventilation under engineered air control systems designed to prevent exceeding appropriate TLV. For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirator for organic solvent vapors. A dust mask does not provide protection against vapors. Where contact with the eyes or face is likely, a faceshield or chemical splash goggles Eye Protection: should be worn to prevent eye contact. Protective Gloves: Wear gloves with as much resistance to the chemical ingredients as possible. Glove materials such as nitrile rubber may provide protection. Glove selection should be based on chemicals being used and conditions of use. Consult your glove supplier for additional information. Gloves contaminated with product should be discarded and not reused. Various application methods can dictate use of additional protective safety equipment, Other Protective Clothing: such as impermeable aprons, etc., to minimize exposure. Use process enclosures, local exhaust ventilation, or other engineering controls to **Engineering Controls** (Ventilation etc.): control airborne levels below recommended exposure limits. Use only with adequate ventilation to prevent buildup of vapors. Do not use in areas

	Supersedes Revision: 02/16/2	2023
Work/Hygienic/Maintenance Practices:	 where vapors can accumulate and concentrate, such as basements, bathrooms or a enclosed areas. Whenever possible, use outdoors in an open air area. If using ind open all windows and doors and maintain a cross ventilation of moving fresh air acr the work area. If strong odor is noticed or you experience slight dizziness, headach nausea or eye-watering STOP ventilation is inadequate. Leave area immediate and move to fresh air. Wash hands thoroughly after use and before eating, drinking, or smoking. Do not eat, drink, or smoke in the work area. Discard any clothing or other protective equipment that cannot be decontaminated. Facilities storing or handling this material should be equipped with an emergency 	oors ross ne, Ily
	eyewash and safety shower.	
9.	PHYSICAL AND CHEMICAL PROPERTIES	
Physical States:	[]Gas [X]Liquid []Solid	
Appearance and Odor:	Clear colorless liquid with a characteristic ketone odor. Odor threshold not determined.	
pH:	N.D.	
Melting Point:	N.D.	
Boiling Point:	> 37.70 C	
Flash Pt:	0.00 F Method Used: Setaflash Closed Cup (Rapid Setaflash)	
Evaporation Rate:	> 1 (BuAC=1)	
Flammability (solid, gas):		
Explosive Limits:	LEL: N.D. UEL: N.D.	
Vapor Pressure (vs. Air or mm Hg):	N.D.	
Vapor Density (vs. Air = 1):	> 1	
Specific Gravity (Water = 1):	0.7840 - 0.8040	
Density:	6.52 - 6.69 LB/GA	
Solubility in Water:	complete	
Saturated Vapor Concentration:	N.D.	
Octanol/Water Partition Coefficient:	ND	
Percent Volatile:	100.0 % by weight.	
VOC / Volume:	25.0000 G/L	
Autoignition Pt:		
Decomposition Temperature:	N.D.	
Viscosity:	< 5 CPS

	10. STABILITY AND REACTIVITY				
Stability:	Unstable [] Stable [X]				
Conditions To Avoid - Instability:					
Incompatibility - Materials To Avoid:	May form explosive mixtures with chromic anhydride, chromyl alcohol, hexachloromelamine, hydrogen peroxide, permonosulfuric acid, potassium tertbutoxide, and thioglycol. Strong oxidizers.				
Hazardous Decomposition o Byproducts:	r Decomposition may produce carbon monoxide, carbon dioxide, and other asphyxiants. 2-butoxyethanol can decompose to form aldehydes ketones, and organic acids.				
Possibility of Hazardous Reactions: Conditions To Avoid -	Will occur [] Will not occur [X]				
Hazardous Reactions:					
	11. TOXICOLOGICAL INFORMATION				
Toxicological Information:	This product has not been tested as a whole. Refer to section 2 for acute and chronic effects.				
	CAS# 67-64-1: Standard Draize Test, Eyes, Species: Rabbit, 20.00 MG, Severe.				
	Result: Behavioral: Change in motor activity (specific assay). Behavioral: Alteration of classical conditioning.				
	- American Journal of Ophthalmology., Ophthalmic Pub. Co., 435 N. Michigan Ave., Suite 1415, Chicago, IL 60611, Vol/p/yr: 29,1363, 1946				
	CAS# 111-76-2: Acute toxicity, LC50, Inhalation, Rat, 450.0 PPM, 4 H.				
	Result: Behavioral: Ataxia.				
	Nutritional and Gross Metabolic:Weight loss or decreased weight gain. - Toxicology and Applied Pharmacology, Academic Press, Inc., 1 E. First St., Duluth, MI 55802, Vol/p/yr: 68,405, 1983				
	Acute toxicity, LD50, Skin, Species: Rabbit, 220.0 MG/KG. Result:				
	Effects on Embryo or Fetus: Extra embryonic structures (e.g., placenta, umbilical cord). Effects on Embryo or Fetus: Other effects to embryo. Specific Developmental Abnormalities: Musculoskeletal system.				
	- Dow Chemical Company Reports., Dow Chemical USA, Health and Environment Research, Toxicology Research Lab, Midland, MI 48640, Vol/p/yr: MSD-46,				
	Acute toxicity, LD50, Oral, Rat, 250.0 mg/kg. Result:				
	Lungs, Thorax, or Respiration: Changes in pulmonary vascular resistance.				
	Standard Draize Test, Eyes, Species: Rabbit, 100.0 MG, Severe. Result:				
	Effects on Newborn: Apgar score (human only).				
Licensed to W.M. Perr and Company
